

How to Choose the Right Staffing Partner for You

You're busy running your business, and temporary workers are an integral part of ensuring that your jobs are completed on time. But finding the right temporary worker takes time and energy. It means posting jobs and following up in a timely matter. And, let's be honest, it's not your top priority. That's where a staffing partner can help.

Staffing companies can provide cost control, manage staff during peak seasons, and offer much-needed consulting and expertise. Having a good staffing partner can come in handy in a multitude of situations, beyond filling the standard temp role. Conversely, choosing the wrong partner can have negative effects on your business and bottom line. So the real question is, how do you choose the right staffing partner for your specific business needs? We've put together a quick comparison chart to help you determine what's right for you.

	TRADITIONAL STAFFING	APP-BASED STAFFING	FULL-SERVICE STAFFING
APP-BASED TECHNOLOGY		✓	✓
ABILITY TO FILL LAST-MINUTE ORDERS QUICKLY		✓	✓
LOCAL FOOTPRINT AND LOCAL EXPERTISE	✓		✓
DEDICATED SERVICE REP	✓		✓

Traditional Staffing Partners

Traditional staffing partners provide a consistent quality of workers based on screening processes such as interviews, skills evaluations, and background checks if necessary. While the main advantage of going the traditional route is having a dedicated service rep and a brick-and-mortar office, traditional staffing partners tend to lack the agility and flexibility to deal with last-minute orders or changes, which are a daily reality for many companies.

App-Based Staffing Partners

App-based staffing platforms offer you access to their workers 24/7, giving companies control, flexibility, and transparency. On the other hand, if you're looking for the more personal experience of having a dedicated service representative or the support of a local office, this may not be the right fit for you.

Full-Service Staffing Partners

A full-service staffing partner is your one-stop shop, blending the benefits of both traditional and app-based staffing into one. Not only do you get the access and control to build your team the way you want it, but you also have the local support when you need it.

Finding the right temporary workers starts with finding the right partner. With PeopleReady as your full-service staffing partner, you have access to an extensive national branch network along with the JobStack mobile app and online portal.
